TERRIBLE CONFLAGRATION!

CHICAGO DESTROYED BY FIRE.

The Greatest Fire of Modern Times.

[From the Associated Press Telegrams.]

CHICAGO, October 8—12:30 A. M.—The most terrible conflagration that ever occurred in this city broke out about an hour and a half ago, and having already swept over six entire blocks is still raging with unabated fury. The fire started in a large planing mill, situated between Clinton and Canal, and Van Buren and Jackson streets, at about the centre of the block formed by these streets. The wind blowing fresh, the flames spread with incredible rapidity, and in a few minutes the entire structure was a mass of fire. The immediate vicinity was built up with small wooden tenement houses and two-story frames, occupied as groceries and saloons. The inmates of many buildings, started from slumber, had barely time to rush from their houses in scanty attire, leaving their household goods to destruction.

In several instances children were hastily wrapped in blankets and quilts to break the force of their fall, and thrown from second-story windows to the ground.

When the alarm was sounded for this fire, another of considerable magnitude was burning on Wells street near Adams, and several engines were necessarily kept at work upon it. The rest of the engines in the city were soon on the ground, but before they arrived the fire had spread over so large an area and was so rapidly spreading further, that their efforts seemed of little avail.

Between Canal street and the river were several lumber yards, which are entirely destroyed. At this hour the fire has made a clean sweep from Van Buren street north two blocks, to Adams street, and west to Clinton street two blocks from the river. The wharves between Van Buren and Jackson street are burning, and the woodwork of the western approach to Adams-street bridge is destroyed. A coal yard, containing 1,000 tons of soft coal, situated between the tracks of the Chicago and Alton and the Pittsburgh and Fort Wayne Railroad tracks, and the river, is on fire, and burning furiously. The immense grain elevator of Vincent, Nelson & Co., one of the finest in the city, is immediately adjoining, and though intended to be fireproof, there seems little doubt but that it will be destroyed, as the intense heat to which it is subjected will crack the slate with which it is covered on both roof and sides. It contains many thousand bushels of grain of all kinds. The depot of the Pitsburgh and Fort Wayne, and Chicago, Alton and St. Louis Railroads, is situated north of Adams street and between Canal street and the river. One of the buildings, a light wooden structure, occupied as an Express office, was in flames at midnight and is undoubtedly destroyed. The scenes in the vicinity of the conflagration are indescribable. Half of the population of the city seems gathered there. Tugs in the river are engaged in towing to places of safety the vessels in the neighborhood, while locomotives are pulling out the great number of cars standing on the track in the path of the flames.

CHICAGO, October 8—1:30 P. M.—The fire is raging as violently as ever. The block of buildings on the north side of Van Buren street, which it was thought an hour ago might be saved, is now wrapped in flames. The Elevator is safe, so far. The fire seems to be spreading south and west. The wind is now directly from the south, blowing hard. The glare from the blazing buildings lights the streets half a mile away so that one may see to read. The entire Fire Department is now on the ground, and making almost superhuman efforts to stay the flames. The losses already run into millions, and the end is not yet.

CHICAGO, October 9—12:45 A.M.—To-night is the most awful in the annals of this city. The fire, which commenced at 9:45 P.M., has already swept over a space at least three times as large as that of last night, and is still rushing on its path of destruction with the greatest fury.

Since this report commenced two additional alarms have been struck. The tower of the Court House caught fire from a flying brand, but was extinguished by the watchman in the tower. No description can give an adequate idea of the terrible scene.

The fire started in a row of low wooden buildings on De Koven street, between Jefferson and Clinton streets, and, as was the case last night, spread with terrible rapidity. Before a single engine could get on the grounds half the block was in flames and burning furiously. The entire department were soon on the spot and at work. For a time it seemed probable that they would succeed in confining it to an area of four or five blocks. The wind, however, which was blowing freshly when the fire started, increased to a gale, and suddenly the flames seemed to spread in every direction, becoming entirely beyond the control of the Fire Department.

CHICAGO, October 9—Noon.—The whole business portion of the city is in ashes from Harrison street north to Chicago Avenue, east of the river to the lake. The burnt district embraces three miles in length and a mile to a mile and a half in width. Every hotel, bank, express office, telegraph office, theatre and newspaper office, with all the wholesale houses in the city, are totally destroyed. Many thousand dwellings are consumed. Early this morning the wind was blowing a perfect gale from the southwest, with a sky of brass. No one can tell what the end will be. The only salvation for the remainder of the city is in the wind keeping in the present direction. The unburned streets for miles are lined with household goods. No one dare think what the loss of life may be. The flames swept through the city with the rapidity of a prairie fire, and many persons must have perished.

The Western Union Telegraph Company have succeeded in getting up a few wires from a hastily improvised office, in the southern part of the city, and establishing communication in nearly all directions. Munificent offers of assistance are coming from every direction.

Everything embraced in the district from Halstead street on the west and Harison on the south, straight north to Lincoln Park, and into the woods beyond, is in ashes. Only one building is left standing—the Post Office building—and that is completely gutted. A lot of prisoners under the old Jail were burned to death.

CHICAGO, October 9—1:30 P. M.—Less than fifty lives were lost. All the hotels and printing offices, depots and theatres are lost. The fire is checked on the south side, but is still burning on the north.

CHICAGO, October 9—2:30 P.M.—J. V. Farwell & Co's block, and in fact every building from Twelfth street north, and Canal street on the West side, to Lake, is burned. All the city banks and the business part of the city are gone. In fact, Chicago is all gone except a small portion of the west side. The fire is now two miles north of the river on the north side, and is burning again with intense fury. The firemen are exhausted.

Engines have arrived from Milwaukee and are constantly arriving from points within three hundred miles.

The highest estimate of loss of life is 100; lowest, 50. A great number of persons jumped into the river to escape the flames, only to drown. Hundreds of animals perished in stables and streets. It is estimated that a hundred thousand people are homeless, a large number of whom are destitute of everything. Cooked food is in great need, and all trains have been requested to forward provisions and clothing for the hungry and nearly naked women and children as early as possible. Nearly every city and town east of here has responded to this demand, and it is hoped the west will not be backward.

It is now believed that the spread of the fire southward is stayed at Harrison street; but on the north side it still rages, and that entire division of the city seems to have been utterly destroyed, and it is feared that the west side of the North Branch of the river will also be burned. The inhabitants in the section nearest the river are already moving further away.

It is ascertained that the Water Works are not destroyed, and there is great joy.

CHICAGO, October 9—5 P. M.—The simple facts that the great city of Chicago is destroyed—that hundreds of millions of active capital have been ruined—and that nearly one-third of the inhabitants are homeless, and penniless, are enough. Any attempt to embelish would be but mockery. As this awful day draws to a close, thousands of anxious eyes watch the dense clouds of smoke which still roll over the burnt districts, with evident fear that a sudden change of wind may fan the flames. There is, however, little cause for apprehension, and reinforcements of firemen from other cities are constantly arriving.

Colonel J. J. S. Wilson, Superintendent of the Western Union Telegraph, is in receipt of dispatches from leading cities, announcing that aid is being forwarded for the sufferers. The Mayor of St. Louis telegraphs that $70,000 has been subscribed by merchants of that city. Cincinnati promises $100,000, and Cleveland is proportionately generous. All this and a great deal more will be needed to relieve the immediate pressing wants. About three-fourths of the United States mails were saved and taken possession of by Colonel Wood of the Postoffice service.

CHICAGO, October 9—6 P. M.—The progress of the flames in the South Division was finally arrested about one o'clock this afternoon. This was accomplished by the blowing up and demolishing of several buildings on Wabash Avenue and Congress street by Lieutenant-General Sheridan. The district burned over in the South Division embraces everything from the main branch of the Chicago River to the Lake, embracing about one hundred blocks. This district contained all the leading business houses, the banks, insurance offices, hotels, etc., a large number of churches, including St. Mary's Trinity, First Presbyterian, Second Presbyterian, St. Paul's, Swedenborgian, etc. The Methodist Church on the corner of Wabash avenue and Congress street is saved. The Michigan Avenue House, on the corner of Michigan avenue and Congress street, and Congress Hall directly adjoining, on Congress street, are saved. Michigan Terrace on Michigan avenue, embracing the residence of Lieutenant-Governor Bross, Hon. J. Young Scamman, S. C. Griggs, and other leading citizens, is completely destroyed, with the furniture and nearly all other contents. All the newspaper establishments are totally wiped out.

The *Tribune* building resisted for several hours, but finally yielded, when McVicker's Theatre, immediately adjoining, which had also withstood the raging element, finally succumbed. In fact all the buildings in the district which claimed to be fire-proof, shared the fate of those which could make no such claims. The Great Central depot, at the foot of Lake street, became a heap of ruins. About 9 o'clock most of the passenger cars of the Michigan Central, Burlington and Quiney, and Illinois Central railroads, were moved on the Brakewater and saved.

West of Clark street, in the South Division, the fire is extended south as far as Polk street, sweeping everything before it. The distance burned over here is some three blocks wide and over half a mile in length, numbering about twenty blocks. The buildings were generally of the cheaper character, embracing saloons, small shops, poor residences, etc. The district burned over on the west side commences at Taylor street, running from De Koven to Jefferson; it ran thence four or five blocks north, and then moved diagonally toward the river, and finally, the west line was established on Clinton street, and reaching thence to the river, it moved in this line northward until it reached the Northwestern west side depots, where it stopped, a distance of nearly two miles from where it started. The Pittsburg, Fort Wayne and Chicago and Chicago and St. Louis depots were in this territory; both passenger and freight depots are wiped out. Almost the entire northern division, from the main branch of the Chicago River to Lincoln Park, nearly two miles in length, and one mile wide, is completely destroyed, including the Water Works, a large number of elegant churches, etc.

This statement embraces the districts devastated and embraces almost the entire business portion of the city.

South of Harrison street in the South Division, and reaching out many miles, and covered almost entirely with dwellings composed largely of the more elegant class, is untouched, and may now be regarded as safe from injury. For miles and miles in every direction the sidewalks, lawns, vacant, lots, and front yards of dwellings are filled with people who have escaped from their burning dwellings, taking with them only a scanty amount of their furniture and clothing. The sight is truly pitiful and harrowing. They must receive immediate relief, or many will perish from exposure and starvation.

Of course it is utterly impossible to make an approximate estimate of the entire loss, but it can scarcely fall below one hundred and fifty millions of dollars. Of course but a fraction of this amount can be realized from the insurance.

General Sheridan has to-day telegraphed to St. Louis, to the millitary department there, to send at once to Chicago 100,000 rations. He has also telegraphed to Omaha for two companies of regulars and one hundred tents. They will all be here as soon as they can come by rail. He will also order another hundred thousand rations.

Mayor Mason has issued a proclamation, calling a meeting to-night in the West Division, to see what the citizens can do for the relief of the sufferers. There are at least 10,000 people who know not where they can get enough provisions to satisfy the appeals of hunger. A later rumor from the North Division says the devastation is less wide-spread than hitherto reported. There are no deaths reported by the disaster yet, but undoubtedly many have perished.

CHICAGO, October 10.—The following eloquent and truthful description of the fire has been furnished by a gentleman who participated in the work throughout:

None but an eye witness can form an idea of the fury and power of the Fire Fiend as he revelled among the palatial buildings and warehouses on the south side. With the wind blowing a hurricane, it seemed but the work of a moment for the fire to enter the south ends of buildings fronting on Randolph, Lake and Water streets, and reappear at the north doors and windows, belching forth in fierce flames which often licked the opposite buildings; and then the flames leaping from buildings on both sides of the street would unite and present a solid mass of fire, completely filling the street from side to side, and shooting upward a hundred feet into the air above the housetops, in their mad career.

The suffering on the north side is heart-rending. Men, women and children—50,000 of them—are huddled together like so many wild animals; and in another place 17,000 Germans and Irish are praying for relief; helpless children asking for bread; heartbroken parents, who know not which way to turn or what to say; nothing to do but to wait the distribution of supplies, which at best must be a slow proceeding, as there are parts of the burnt districts over which it is impossible to travel; women in the pains of childbirth, and patients who have been aroused from beds of sickness to save lives that at best were nearly spent; all exposed to the rain of last night and the cold raw winds of to-day.

CHICAGO, October 10—Evening.—Each train and the extras are loaded to their fullest capacity, taking people away, who in many instances have no place to go to, yet cannot stay here, and every train is obliged to take five times as many as they have room for.

The International Insurance Company has resolved to pay all losses without delay. The Phœnix Company gives notice that it can meet all losses.

MASSACHUSETTS LABOR REFORM CONVENTION.—The State Labor Reform Convention met at South Framingham, October 4th. Wendell Phillips presided and delivered a brief address, in which he said he regarded this Convention as the great peace society of the world; a peaceful movement of humanity to protect itself. The preamble to the resolutions adopted affirms as a fundamental principle that labor is the creator of wealth and entitled to all it creates. Affirming this, we avow ourselves willing to accept a final resolution of the operation of a principle so radical as the overthrow of the whole profit-making system, extinction of all monopolies, abolition of privileged classes, an extended rather than restricted franchise, universal education and fraternity, perfect freedom of exchange, and as the best and grandest of all, find an obliteration of that stigma upon our so-called Christian civilization—the poverty of the masses. The resolutions convey in detail sentiments of the preamble. A formal ballot for Governor gave Chamberlain 204, Butler 83, Cowley 30. Chamberlain's nomination was made unanimous, with the following names to complete the ticket: Lieutenant Governor, Allen Dean; Secretary of State, H. B. Megathlon; Attorney-General, George H. Rufin (colored); Auditor, George B. Sanderson.

The following resolution was carried vociferously, the delegates expressing unbounded enthusiasm: Resolved, that we welcome women to a seat in this Convention as legal delegates, and also as voters to the polls as soon as they can be legally made so.

THE COLORED VOTE.—The *Elevator*, organ of the colored people in San Francisco, arrives at the conclusion that there are about three thousand colored voters in this State. It thinks that Sacramento city and county have 250 colored votes; Stockton and parts of San Joaquin county, 145; Santa Clara, 112; Contra Costa, 8; Solano, 60; Nevada, 80; Placer, 70; Alameda, 90; San Mateo, 20; Santa Cruz, 20; Sonora, 62; Yuba, 50; Yolo, 42; Shasta, 20; Napa, 42. These numbers added together, including San Francisco, make 1,864. There are, according to the same authority, from 20 to 30 colored persons in El Dorado county, 40 in Tehama; and in Amador, Butte, Sutter, Sierra, Los Angeles, San Diego and Siskiyou, and the other counties not named, about 1,100 more.

DR. LISLE, of London, says that he has cured 21 cases of cholera out of 25 by administering a solution of five parts of sulphate of copper to one hundred parts of distilled water, about thirty drops of Sydenham's laudanum, and four ounces of sugar and water. Dr. Droget advocates a solution of castor oil in collodion being applied with a brush to the abdomen. The mixture forms a water-proof film which prevents perspiration, and vomiting and cramps are instanly arrested.

ILLINOIS DEMOCRATIC STATE CONVENTION.—The Democratic State Convention met at Springfield October 4th, and nominated a candidate for Congress for the State at large—S. S. Hayes, a wealthy and prominent lawyer of this city. He was nominated by acclamation. Resolutions were adopted arraigning the administration, and declaring that the Democratic party has no new position to take, but being always supporters of the Constitution, and believing now as always, it should be obeyed in all its parts, and political distinctions founded on race and color being now abolished, we pledge ourselves in the future, as in the past, to maintain at all times the Constitutional rights and franchises of all men without regard to previous conditions. They denounce a protective tariff and a separate resolution declares in favor, out and out, of free trade; declare that honor and duty alike require an honest payment of the public debt, but don't admit that creditors are entitled to special favors; denounce Tammany and all other rings or political combinations for partisan purposes, and favor a speedy return to specie payments.

RAIN SIGNS.—The San Joquin *Republican* says: Uncle Billy Fairchild gives us another sign of wet weather which he regards as infallible. Last year about this time, the squirrels, of which there were thousands, left his place, which is on rather high ground, and went down on the bottoms, where they remained until a short time since, when they commenced moving back to the high ground. Uncle Billy says they are now swarming on his ranch and making their homes in the highest knolls. This is believed to be an indication of wet weather. If squirrel instinct amounts to anything we may add this singular conduct on their part to other signs of a wet Winter.

New York Democratic State Convention.

ROCHESTER, Oct. 4th.—The Democratic State Convention was called to order by S. J. Tilden, Chairman of the State central Committee, who made a speech and declared the municipal corruptions the result of twenty years of Republican legislation and the partnership of men of both parties for plunder. He said the time had come to make and enforce a decree that no man who plundered the people should be called a Democrat.

Clarkson N. Potter, member of Congress, was then chosen temporary Chairman, in accordance with an understanding with all factions.

A communication was received from the Tammany delegation waiving, for the success of the ticket, all claims to participate in the Convention, at the same time pledging the delegation to support the nominees.

The Committee on Credentials was then appointed, and the Convention took a recess to 4 o'clock A. M., when an organization was affected by the election of Clarkson N. Potter President, with the usual number of Vice Presidents and Secretaries. The resolutions reported denounce the administration at Washington as false to its pledges, to the Constitution, and charges that it has kept alive sectional hate, refused amnesty to submissive citizens, and denied peace to restored States, made the rich richer and the poor poorer, squandered public lands, and now seeks to perpetuate its power by military interference with popular assemblages and elections. The second recognizes emancipation and enfranchisement and equality before the law of the freedmen at the South, as the inevitable consequence of the civil war and the overthrow of the rebellion, and declares it the duty of all to sustain them in all rights. The third denounces the fraud and corruption in New York city, and demands the immediate punishment of those upon whom guilt can be fixed, and it also further declares that the Republican party is responsible for the inauguration and growth of this state of affairs and demands from the next Legislature such reforms in the city charter as shall eradicate the legislation through which such frauds are possible, and also secure, among other things, an early opportunity to the people of this city to choose new municipal officers; to give the Mayor more complete control of and consequently more responsibility for subordinate departments, and make the Mayor of New York and Mayors of cities liable to removal by the Governor for malfeasance in office or the neglect of duty; elections in the Spring of each year, publicity of accounts at all times and facilities to tax-payers to restrain and punish abuses and secure a speedy trial of offenders in independent courts. The fourth favors granting powers to towns and counties to create a debt and levy taxes. The fifth calls attention to Federal corruption. The sixth denounces the registry laws and favors the constitutional amendment now pending, making bribery a good challenge to electors and denying suffrage to both giver and receiver of a bribe. The seventh challenges comparison of Democratic and Republican administration in State affairs. The eighth declares the Government should levy no tax upon imports except for revenue purposes; that revenue should be moderate and based upon the value of the property taxed; that raw material cannot be specially taxed without unjustly burdening domestic manufactories; denounces the present tariff and declares there is no necessity in the present condition of the Government for any tariff whatever upon necessary articles, such as coal, iron, clothing, medicines and all materials used in mechanic arts. The ninth endorses and highly eulogizes Governor Hoffman. Tenth, in view of apprehensions expressed that the religious and civil equality of citizens is menaced, renews the pledge of fidelity to the great Democratic doctrine of equal and exact justice to all men of whatever creed and nationality and especially foes to none.

The resolutions were adopted. There appears to be great satisfaction at the action of both the Tammany delegation and the Convention; while the former claim they have defeated the determined effort to break their power as an organization, the latter feel they have discharged their duty in purging their body of any taint which was likely to attach to it by affiliation with the latter's representatives.

The Convention nominated Diedrich Willis for Secretary of State; A. V. Nicholls, Controller; W. H. Bristol, Treasurer; Marshall B. Chaplain, Attorney-General; Van B. Chapman, Canal Commissioner; and David B. Moenel, Inspector of State Prisons.

A PARALLEL.—The Brooklyn (N.Y.) *Eagle* thinks that politics pay quite as well at the White House in Washington as at the City Hall in New York. To prove this it strikes a parallel on President Grant. It says:

President Grant went into the army not worth a cent, and has lived quite freely ever since. His horses and equipages, are the theme of admiring descriptions from correspondents not only at Washington, but at Long Branch, and wherever he takes up his temporary abode. It is therefore quite consolatory to find that out of his not excessive salary, first as General and now as President, he is able to keep $800,000 of bloodied stock and such like property idle on a Missouri farm. Politics appear to pay much the same in the White House at Washington as in the New Court House of New York. The boss politician is evidently bound to be the millionaire of the period. He has found the secret hinted at in the Scriptural passage "there is that scattereth and increaseth." The boss politicians, whether called Legislators or Presidents, contrive to live at the highest point of luxury, and on moderate salaries, and yet to roll up riches.

THE proprietors of the Silver Islet mine in Lake Superior have been successful in finding upon the mainland opposite the island the same vein of ore which has proved so astonishingly rich in their present mine. It was discovered, as we are told, at a depth of sixty feet below the surface. From Silver Islet, ore to the value of $800,000 has been taken in about ten months, and the vein seems to grow richer the deeper it is worked. There is no telling what stores of mineral wealth are laid up in the rocks and mountains around Lake Superior.

County Judge.....ED. ROBERTS

MEXICO.—Juarez has been installed President of Mexico for another term, but the Republic is threatened with revolution.

EASTERN ELECTIONS.—It is reported by telegraph that Ohio has again gone Republican by 20,000 majority, and Pensylvania by 10,000.

GOOD DIVIDENDS.—The Bank of California paid six hundred thousand dollars in the past year as dividends, being one per cent. per month.

ENTERPRISING FIRM.—Redington, Hostetter & Co., whose stock of drugs, etc., was destroyed by fire on the 23d, have bought out the establishment of R. H. McDonald & Co., and will continue their business without interruption.

ITS LABOR AND COST.—The Mt. Cenis tunnel nearly eight miles long, cost $13,000,000, and employed 2,000 men for nine years. Each lineal yard cost $1,000. The cost to France is $5,100,000; the balance of the expense is paid by the Railway Company of North Italy.

U. P. RAILROAD.—The net earnings of the Union Pacific Railroad for August were $382,241, and for the first eight months of the year $2,681,029, against $314,720 and $1,627,507 for the corresponding periods in 1870, showing a comparative gain thus far for the year of $833,532.

MORTGAGED.—Sam Brannan has effected a very heavy loan upon his Calistoga property and the real estate owned by him in Sacramento. The Sacramento Savings Banks loaned him upon the above named security the sum of $100,000, on which he pays interest at the rate of ten per cent. per annum.

A CALL UPON THE DRUIDS.—Davis Louderback, Noble Grand Arch of the Order of Druids has issued a call on the Order in the Pacific States, stating that the families of 1,000 Druids are left homeless by the Chicago fire, and calling for subscriptions for their relief. Three of the Groves have contributed. There are eleven more to hear from.

QUALIFICATIONS.—Certain obscure Republicans (we use the term "obscure" because no respectable man of any standing in the community would stoop to the dirty work), have been trying to make it appear that the nominee of their party for County Judge was even equal in qualifications to the Democratic nominee, Ed. Roberts. We will guarantee that Mr. Roberts knows how to spell the word BALLOT, and that he does not spell it *b-a-l-l-a-d!* That is the way his opponent spelled it when on the bench.

VOTE OF THE STATE.—The complete vote of the State has been published, most of the counties being official. The highest vote polled is for Governor, 125,096—the largest ever cast in California—and Booth's majority is 5,068. Green, the Comptroller, leads the ticket, receiving 128 votes more than Booth. The lowest man on the Republican ticket is McGlynn, who is defeated by Rosenfield by 1,716 votes. The Congressional majorities are as follows: Houghton, 1,603; Sargent, 2,690; Coghlan 1,200.

BRIDGING THE BAY.—Another huge swindle of the people is in preparation by the Railroad monopoly, aided by the *Bulletin*, *Call*, and other papers. It is proposed to build a bridge over San Francisco Bay from Hunter's Point to Alameda or some adjacent point, which will be some three miles in length, and cost from three to five million dollars. The Mayor and a majority of the City Council are said to favor it. San Francisco will be asked to vote the necessary funds to build the bridge, and then the railroad folks will consent to run into the city.

A "RUN."—There was a run on the Sacramento Savings Bank by the depositors on Wednesday last, caused by rumors that the Chicago fire in some way affected the bank. About eighty thousand dollars was paid out, and the bank showing no signs of weakness the scared ones began to grow scarce. It was announced that the bank could stand several days such runs as that. Instead of being alarmed, the officers appeared to be glad to get rid of some of its surplus cash by paying it to depositors, thereby saving interest.

THE UNITED STATES SENATE.—On March 4th, 1873, twenty-four seats in the United States Senate will become vacant by the expiration of the term of office. Of the twenty-four Senators whose terms will expire at the date mentioned, three—Garret Davis, of Kentucky; George Vickers, of Maryland; and Francis P. Blair, Jr., of Missouri—are Democrats; the remaining twenty-one are Republicans. Among the latter are Lyman Trumbull, of Illinois; Oliver P. Morton of Indiana; James Harlan, of Iowa; Roscoe Conkling, of New York; John Sherman, of New York; John Sherman, of Ohio; Simon Cameron, of Pennsylvania; and Justin D. Morril, of Vermont.

THE ELECTION.

On Wednesday next the voters of California will have the proud privilege of exercising the highest right of freemen—depositing their ballots for candidates for public office. It will be every voter's duty on that day to go to the polls and vote for a candidate for Supreme Judge for a full term, for a Supreme Judge for an unexpired term, for a Superintendent of Public Instruction, for a County Judge in each county, and for two Justices of the Peace in each judicial township. probably every voter has made up his mind how his ballot shall be cast—whether for the Democratic or Republican nominees. Judges Temple and Wright are both men of the highest standing as Judges, men who have filled every position they ever occupied in life with consummate ability and with credit to themselves, each an honor to the bench and a credit to the State to which they belong. O. P. Fitzgerald, for Superintendent of Public Instruction, is a very pattern man for that exalted position. The prosperous, satisfactory condition of the schools of California, over which he has presided as Superintendent during the last four years, with the almost universal expression in his favor of the teachers in charge of those schools stand forth as witnesses in his behalf whose testimony cannot be impeached. He has been traduced and maligned almost beyond precedent by the unscrupulous portion of the Radical press because he has rid our public schools to a great extent of the partisan teachings so prevalent under the administration of his predecessor. The cause of education has advanced during Mr. Fitzgerald's term, till it now stands second to that of no State in the Union; and under so thorough, comprehensive and practical a Superintendent will continue to make rapid advances in the future. Ed. Roberts, for County Judge, is known to every voter in Yolo county. In point of real sound sense and clear judgment he has few superiors in the county, and, in comparison with his opponent, Mr. Roberts is in every respect the superior of the two. Neither are practising lawyers, but it is the general opinion that Mr. Roberts is by far the best posted, the most thoroughly read, with by far the most comprehensive judgement, and consequently is best fitted to become our County Judge. And he most surely will be. There have been no nominations for Justices. Each party in the different townships will take up candidates, and there will probably in some instances be several on both sides. We have a last request before the election to make of Democrats, and that is, that they do not allow themselves, from any feeling of indifference, apathy or supineness, to stay away from the polls, with the idea that it is not an important election. Banish the thought. *It is important.* Suppose the Radicals elect their candidate for Superintendent; all the evils of their former management will be reinstated, *besides*, in a short time, negro and Chinese equality in our schools, the old, expensive lingo of text-books and many other evils with which all Democrats are already familiar. Voters, as you love impartial justice in our Supreme Court; as you desire a progressive, liberal, enlightened, non-partisan, non-sectarian, thorough school system—such as we have to-day and ought to be proud of; as you would have justice meted out in our own county by the County Judge to be elected, and by the Justices of the Peace in each Township—as you care for and are interested in these important considerations, we conjure you to do your utmost for the success of the Democratic nominees on Wednesday next. Do this, and yours will be the reward. Remember that a single vote not cast may lose the precinct; and if it can change the result in a precinct it can in a township, a county, or a State. Go to the polls, and not only go yourself but be sure that your Democratic neighbor goes. If we all turn out and do our whole duty, when the sun goes down on Wednesday next we will have elected our whole ticket—Supreme and County Judges, School Superintendent and Justices of the Peace. Such, we trust, the result will be.

HOW BOOTH WAS ELECTED.—The *Trinity Press* asks: How was Booth elected Governor? and then answers: A glance at the vote will show. In most of the counties the Democratic vote has increased. Booth has about 5,000 majority. In the four counties of San Francisco, Alameda, Sacramento and Solano, his majority is over 6,000. In San Francisco the negroes voted for him; the Federal office-holders were for him; the Bank of California and all other great monied interests were for him; all the schemers whom Haight had baffled, and all disappointed Democratic place hunters, were for him. In Alameda, where the railroad company has hundreds of men employed, it voted them for him. The same is true of Sacramento. In Solano, the Navy Yard employes were voted solidly for him. This is how Booth was elected. The negro vote, the railroad men and the Government employes, combined with corruption, turned the scale. Is it a victory to be proud of?

WEST VIRGINIA.—The official returns of the election in West Virginia, on calling a Convention to revise the State Constitution, show that 30,538 votes were cast for the Convention and 27,688 against it. Party lines were drawn down close—the Democrats voting for and the Republicans against a Convention. In a total vote of 58,227 the majority in favor of the Convention is 2,851, being a Democratic gain over the election of last year of 701.

The Great Fire at Chicago.

On our first page will be found the details, as fully as we can give them at present, of the destruction by fire of the principal part of the great city of Chicago, by which a great many lives were also lost, fifty being the lowest estimate. It is calculated that the loss of property will exceed $200,000,000. The burnt area exceeds a thousand acres, covering a district nearly four miles long by a mile and a half in width. 110,000 persons are left entirely destitute of food and shelter, and are compelled to sleep in the open air, huddled together like sheep and exposed to the inclemency of the weather. Some of our daily exchanges have cited other great fires in comparison to this. The Stockton *Republican* says that in 1853 the great fire in New York destroyed 600 of the most valuable buildings in the very heart of the city. The loss was estimated at $18,000,000. In 1845, nearly all the business houses of Pittsburgh were entirely swept away—loss $5,000,000. In 1849, a fire, aided by a tornado, destroyed in one night forty blocks of buildings in St. Louis. Twenty-seven steamboats were also burned. Loss, $17,000,000. The great fire in Portland, Maine, in 1866, burned over an area a mile and a half long by a mile and a half wide. Loss $10,000,000. None of these fires equaled the one now raging in Chicago. What is recorded as the great fire in London occurred in 1666. It continued for several days and consumed 88 churches, several bridges, and 13,200 dwellings, but the area burned over was only 436 acres. The greatest fire of which we have any accurate account was the burning of Moscow in 1812. This fire was a voluntary destruction of property and a large amount of valuables had been carried off before the torch was applied to the city. The Kremlin palaces were burned, a number of churches and 7,932 houses consumed. The losses by fire and the war to Moscow, were estimated at $231,600,000. Probably not more than three-fourths of the loss was occasioned by the fire. From these figures it will be seen that the destruction of property in Chicago is greater than the worst.

The great cities of the country are responding with wonderful alacrity to the cry of the starving thousands for aid in money, bedding, clothing and provisions. San Francisco, Sacramento, Stockton and other Pacific cities are also responding with very great liberality, and a large amount of money has been forwarded. A London banking house sent a telegraphic check for five thousand dollars. Fortunately, Chicago has over thirty railroads centering there, so that supplies can be forwarded to any needed extent and by degrees the people taken away to other parts of the country. The whole country should and will respond to aid the sufferers in this terrible calimity. Let not Woodland be behind in so noble a work.

POOR FELLOW.—The man who is "running" the *Mail*, in the temporary absence of its editor, got off a piteous whine in the last issue of that delectable sheet, because the county printing was not given to that paper by a Democratic Board of Supervisors when its proprietor offered to do the work for a less sum than was being paid the DEMOCRAT. Doubtless one of the reasons why the DEMOCRAT had the county printing at the time referred to was, that it was a Democratic paper; another that the Board knew the work would be properly performed; another, that there was no other office in the county that could do it properly. The *Mail* gives as a reason why Mr. Roberts should not be elected County Judge, that he "has by his vote given to the DEMOCRAT nine hundred dollars a year out of the people's money for a small amount of printing." If the said nine hundred dollars contract had been left undisturbed by the Republican member then on the Board (since succeeded by a Democrat), it would have been quite as well or better for the county, in a financial point of view. Now the Board allows for the work actually performed, the same as though it were done for an individual; and if we charged the *Mail's* published rates it would amount to considerably more than it does. We imagine such whining will neither injure Mr. Roberts' chances of election nor facilitate a change in the county printing, and it seems to us that with a unanimous Democratic Board of Supervisors it will take *some little time* to bring about the change the *Mail* man so greatly desires.

RESIGNED.—Pacheco, the newly elected Lieutenant Governor has at last resigned his seat in the Senate. This will involve a new election for the unexpired term which will probably take place on the day of the Judicial election. D. W. James, elected Supervisor of his district in San Luis Obispo county by a majority of 133 in a total vote of 142, is spoken of as the Democratic candidate in Pacheco's district to fill the vacancy in the Senate, and judging from the vote Mr. James received for Supervisor, he will make a good run for the Senate.

"WE SUBMIT."—The Sonoma *Democrat* doubts the expediency of electing a man to the office of Superintendent of Public Instruction who can scarcely speak the English language so as to be understood, and thinks Mr. Bolander might make a very good Superintendent in Germany, but says that if elected he cannot discharge the duties of his office, but that John Swett would be the real Superintendent. This Swett is the bitterest kind of a Radical partisan, and it would be a sorry day for the educational interests of California if a man like Fitzgerald should be superseded by such a man as Swett.

Dedman and His Sentence.

The Gold Hill *News* gives the following information about Robert Dedman, the pardoned Nevada convict, who has a sister residing in Woodland:

Yesterday the Board of Pardon Commissioners at Carson, by unanimous decision, pardoned Robert Dedman, restoring him to the full rights of citizenship. For the information of those not conversant with the circumstances, we will state that Dedman was sentenced to the State Prison for life, some two years ago, for the killing of a young man named Springer, at the Grecian Bend Saloon, Virginia. Springer was dancing with Grace Kerrison, when, prompted by jealousy, Dedman, who was tending bar, came up behind Springer and hit him over the head with a six-shooter, knocking him down and fracturing his skull so that he died in a day or two afterward in consequence. Dedman was not otherwise considered a bad man by any means, and while in prison his conduct was of the most exemplary nature. The principal reason of his pardon, however, was his highly meritorious conduct on the occasion of the recent terrible break at the prison, when twenty-nine of the convicts escaped, shooting the guards and all others who opposed them. Dedman fought bravely by the side of Lieut. Gov. Denver, using chairs or anything else he could get hold of, knocking the assailing desperadoes down, and defending Denver from further harm after he was shot and badly wounded. Dedman could have escaped at that time just as well as not, but he preferred to remain and endure his sentence. A few days ago a petition for his pardon, numerously signed by prominent citizens and business men of Virginia and Gold Hill, was sent to the Board of Pardon Commissioners, and the result is as stated. Dedman is a good-looking, smart young man, and now, if he will have the good sense to profit by the severe lesson he has received and avoid all his former bad associations, he will do well enough. He has a promising future before him, and should profit well by the rare opportunity so generously offered him. Dedman was received into the prison September 6, 1869, and had consequently served a term of confinement of two years and twenty-seven days.

WHAT THEY THINK OF HIM.—The Terre Haut, Indiana, *Gazette*, one of the leading Radical papers of that State, says of Grant: "We have a fine exhibition of a President working to secure his re-nomination. All the influence of public patronage; all the blandishments of executive obsequiousness, and all the political divergences from a right course of action possible to be imagined, are resorted to. Everything that is done, is with an eye single to the great question agitating the mind of the President, *'how shall I act, and what shall I do to secure my re-nomination and election?'*" And the Cincinnati *Commercial*, well known as one of the most influential Radical papers in Ohio, says this of him: "Above all others stand the selfish, egotistical, ignorant official, who owes his elevation to the fact that he was the instrument in the hands of the fiendish Stanton, when he hurled huge masses of fresh troops upon the thinned battalions of the dying Confederacy, and has no more apprehension of the great Republic, which he represents as Chief Magistrate, than the worm has for the greatness of the dead hero on whose body it fattens." From these extracts it would seem that Grant is not as popular as formerly with his own party. He is certainly the poorest stick in the way of a President this country has ever been cursed with, and the whole people will find it out sooner or later.

CALIFORNIA RISKS IN THE CHICAGO FIRE.—The San Francisco *Call* of the 10th instant gives the following statement of the risks which California Insurance Companies held in the great Chicago fire:

As nearly as can be ascertained, the risks taken by our local insurance companies on Chicago property destroyed by the fire are as follows:

Pacific Insurance Company, risks $3,000,400, against a paid up capital and surplus of $1,700,000.

Occidental Insurance Company, capital and surplus, $800,000; risks $200,000 to $300,000.

People's Insurance Company, cash assets, $500,000; risks, about $3,000,000.

Union Insurance Company, capital, $750,000; risks, about $650,000.

Fireman's Fund Insurance Company, capital and surplus $800,000; risks not known, but in about the same proportion as the others.

Several of the foreign companies' agencies here have also lost. The Home Mutual and the California Insurance Companies lose nothing. In the above estimates of risks taken of course no mention is made of the amounts reinsured in other companies, none of which were obtainable.

SIMPLE JUSTICE.—The evidences of Superintendent Fitzgerald's popularity with the teachers of the State are still accumulating. At a meeting of the Teachers' Institute of Sacramento county, on the 6th instant, the following resolution was unanimously passed, which is but a just tribute to Mr. Fitzgerald:

"*Resolved*, That we, as teachers, appreciate the earnest efforts of Hon. O. P. Fitzgerald in the cause of education, his nonpartisan intercourse with us as teachers, and the uniform courtesy, kindness and justice he has ever manifested toward us in his official capacity."

GETTING EXCITED.—The result of Col. Strong's experiment in cotton raising on the Merced has created quite a furore among farmers and land speculators for cotton growing, and we hear of quite a number who express themselves as determined to plant crops of the great Southern staple the coming Spring. Col. Strong's crop is a most magnificent success, and will stimulate agricultural enterprise in this valley more than any other character of crop that has ever been introduced. With good irrigating facilities, our up-lands can be made to produce better crops of cotton than the average bottom lands of the Gulf States, and we do not doubt but that our enterprising farmers will avail themselves of the advantages afforded by the soil and climate of this part of the State, and enter into the production of this prolific crop upon a large scale.—*Snelling Argus.*

FIRES IN THE EAST.—The accounts of the fires raging in Wisconsin are terrible to read. It is fearful to think of a country as large as Sacramento and San Joaquin counties literally burned up. These fires have devastated one of the finest lumber regions of the Northwest, and the loss to the whole country in the destruction of timber is immense. Happily the region was not thickly inhabitated or the suffering would be far greater than it is. The wholesale destruction of the forests of the country by man is bad enough, but when a fiery swath thirty miles wide and a hundred and twenty long is cut through them in a week, and no human power can stop the destroyer, the sight is a sad one and to the reflection not pleasant.—*Union.*

The attention of voters is called to the following provisions of the

REGISTRY ACT.

Every voter is required to be enrolled on or before the thirtieth day before the election.

It is also incumbent on every qualified voter to see that he is duly enrolled. [Sections 18 and 22.]

No voter can be enrolled after the said thirtieth day, except on showing, by affidavit, good reasons for his omission to apply before, and making very strict proof of residence by at least one witness besides his own affidavit. [Section 26, subdivision 1.]

Persons naturalized within thirty-five days before any election may be enrolled after said thirtieth day on producing their certificates and making the like proof of residence.—[Same section, subdivision 2.]

Citizens under age may be enrolled if their majority will take place on or before the day of election. [Section 18.]

QUALIFICATIONS OF AN ELECTOR, AS PRESCRIBED BY THE CONSTITUTION OF CALIFORNIA.

1. Every white male citizen of the United States, and every white male citizen of Mexico who shall have elected to become a citizen of the United States under the Treaty of Peace exchanged and ratified at Quaretaro, on the 30th day of May, eighteen hundred and forty-eight, of the age of twenty-one years, who shall have been a resident of the State six months next preceding the election, and the County or District in which he claims his vote thirty days, shall be entitled to vote at all elections which are now or hereafter may be authorized by law; provided that nothing herein contained shall be construed to prevent the Legislature, by a two-thirds concurrent vote, from admitting to the right of suffrage, Indians, or the descendants of Indians, in such special cases as such a portion of the Legislative Body may deem just and proper.

4. For the purpose of voting, no person shall be deemed to have gained or lost a residence by reason of his presence or absence while employed in the service of the United States; nor while engaged in the navigation of the waters of this State or of the United States, or of the high seas; nor while a student of any seminary of learning; nor while kept at any alms-house or other asylum at public expense; nor while confined in any public prison. [Art. 2, Sec. 4.]

5. No idiotic or insane person, or person convicted of any infamous crime, shall be entitled to the privileges of an elector.—[Art. 2, Sec. 5.]

EXTRACT FROM SECTION 20, OF EIGHTEEN ACT.

No person shall be allowed to vote except at the polls held in the election district where he resides, nor unless his name is enrolled on the poll list where he offers his vote in such district, nor for any representative officers unless he shall have had his residence for thirty days next preceding within the territorial limits prescribed for the election of such officers. If any person enrolled on the poll list, whose vote shall be objected to on the day of election by any qualified elector, shall be proved, to the satisfaction of the Board of Judges, either by his own oath or by the oath of any other qualified elector and householder of the district, or by other clear and competent evidence, not to be legally qualified and entitled to be enrolled on said poll list, or if it be proved as aforesaid that he is enrolled on more than one poll list when he offers his vote, or is otherwise not legally qualified to vote at such election, his vote shall be rejected.

ORGANIZATION OF THE BOARD OF JUDGES—OPENING THE POLLS AND CONDUCTING ELECTIONS.

147. It shall be the duty of each member of the Board of Judges of Elections to be at the place where the polls of his precinct are to be opened, from 8 o'clock in the morning until sunset on the day when any election is to be held by authority of law; and the place of any member not appearing at 8 o'clock in the morning of said day may be temporarily supplied by any qualified voter of the precinct, to be appointed by the member or members in attendance; the appointee to act until the arrival of the absent member whose place he supplies. The Board of Registration, before the opening of the polls, and the Board of Judges of Elections afterwards, shall have power to appoint the necessary Inspectors, not exceeding two, to aid them in the discharge of their duties; which Inspectors shall each be sworn by some member of the Board faithfully to discharge their duties according to law. The Inspector of Elections shall be the Chairman of the Board of Judges of Elections, and shall have power to appoint for the day a qualified elector to fill any vacancy occurring in the Board by the absence of any member after the polls are opened. And if the Inspector of Elections be himself absent, his place may be temporarily supplied as aforesaid by the other member or members present. All persons appointed to fill vacancies shall, before entering upon their duties, take the proper oath of office. [Act of March 31st, 1866, Sec. 2.]

CLOSING THE POLLS AND COUNTING THE VOTES.

Sec. 32. When the polls are closed, proclamation thereof shall be made at the place of voting, and no votes shall be afterwards received.

Sec. 33. As soon as the polls are closed on the afternoon of the day of election, the Judges shall open the ballot-box and commence counting the votes, and in no case shall the ballot-box be removed from the room in which any election may be held until all the ballots are counted. The counting of the ballots shall in all cases be public. The ballots shall be taken out carefully, one by one, by the Inspector, or one of the Judges, who shall open them and read aloud the name of each person contained therein and the office for which every such person is voted for. Each Clerk shall write down each office to be filled, and the name of each person voted for for such office, and shall keep the number of votes by tallies as they are read aloud by the Inspector or Judge. The counting of the votes shall be continued without adjournment until all are counted.

Sec. 34. If two tickets are found folded together they shall both be rejected, and if more persons are designated on any ticket for any office than are to be elected to such office, such part of the ticket shall not be counted for any of them; but no ticket shall be lost for want of form if the Board or Judges can determine to their satisfaction the person voted for and the office intended.

Sec. 35. As soon as all the votes are read off and counted, a certificate shall be drawn up on each of the papers containing the poll list and tallies, or attached thereto, stating the number of votes each person voted for has received, and designating the office to fill which he was voted for, which number shall be written in words at full length. Each certificate shall be signed by the Clerks the Judges and Inspectors. One of said certificates, with the poll list and tally paper to which it is attached, shall be retained by the Inspector and preserved by him at least six months. The ballots shall be strung on a cord or thread by the Inspector during the counting of the ballots, in the order in which they are entered upon the tally list by the Clerks, and the said ballots, together with the other of said certificates, with the poll list and tally paper to which it is attached, shall be sealed up by the Inspector in the presence of the Judges and Clerks, and indorsed "Election Returns," and be directed and delivered or sent by the Inspector to the County Clerk of the county in which the election is held, and the said ballots shall be kept for at least six months by said Clerk; and if any person be of opinion that the vote of any precinct shall not have been correctly counted, he may appear on the day appointed for the Board of Supervisors to open the returns, and demand a recount of the vote of said precinct, and the Board of Supervisors shall proceed to recount the vote of the precinct that is so claimed to have been incorrectly counted.

By order of the Board of Supervisors,

E. BYNUM, Clerk.

Town and County Matters.

TO THE PATRONS OF THE PACIFIC INSURANCE COMPANY.—C. W. Bush, agent for the Company at Woodland, has received the following communication from the General Office at San Francisco:

We are enabled to inform you that the probable losses of this Company at the recent Chicago fire will not exceed $1,000,000 in Currency, and that our first impression, that our losses were exaggerated, are thus fully corroborated.

At a meeting this day, of prominent Stockholders of this Company, it was resolved to meet all the liabilities of the Company in its customary prompt and straight forward manner, and to make good any impairment of capital by a sufficient assessment upon the stock; also, that the business of the Company be continued as heretofore.

It will be observed from the above communication, that all risks carried by the Company will remain as heretofore and all losses to the insured will be as promptly adjusted as though no Chicago fire had occurred. It has been represented that the Pacific Insurance Company would be insolvent from its recent losses, but we are pleased to state that it will stand on as firm a foundation as ever. The available resources are something over $1,700,000, gold coin, while the wealth of its stockholders, who are *individually liable*, will reach many millions.

BURGLARY IN WASHINGTON.—From the *Union* we learn that burglars cut through the front door of the Olive Branch Hotel, Washington, kept by Amos Waring, on Wednesday morning, and, withdrawing the bolts, opened the door sufficiently to allow them to take out the safe and remove it across the street, where they cut a hole through the back part and gained access to its interior. It contained only an old silver watch and a few lottery tickets, which property the burglars took. They also obtained about $6 in change from the money drawer of the hotel. So the burglars must have earned all they got.

COUNTY COURT.—The only case to report since our last issue is that of The People vs. Ventura, under arrest for assault and battery. On Monday last, being brought into Court, he plead guilty, was fined $50 by the Court, which he promptly paid in "coin of the realm," and departed for parts unknown.

STATE MEDICAL SOCIETY.—This Society has been in session during most of the week at Sacramento. Among the newly elected members of the Society we notice the names of Dr. Mathew Gardiner, of Davisville, and Drs. Thomas Ross and Anderson Strong, of Woodland.

PHŒNIX INSURANCE COMPANY.—As will be seen by the advertisment of Mr. Fiske, the agent for this company in Woodland, all the losses sustained by the late Chicago calamity will be met promptly, and the business will go on without any interruption.

ÆTNA INSURANCE COMPANY.—J. L. Simpson, Agent of the Ætna, announces to the people of Yolo county that his company will meet all its losses by the Chicago fire and elsewhere, promptly, and that he is issuing policies as heretofore.

WINDY.—During the past week this locality has been scourged with a high north wind, which most of the time amounted to a gale, and filled the air with blinding dust. Hope it will cause a reaction in the atmosphere and bring up rain.

FENCE BURNED.—On Thursday last during the high wind that was prevailing, the fence of Mr. Beamer, just north of Woodland, caught fire from some burning stumps and some forty rods was destroyed before the fire could be stopped.

PROLIFIC YIELD.—Mr. James Good has left with us a sweet potato vine to which is attached eighteen potatoes, some of them large enough for a single one to afford a strong man a hearty meal.

SETTLED WITH THE STATE.—A. C. Kean, Treasurer of Yolo county, settled with the state Treasurer yesterday by paying over $1,996 79, for the quarter ending September 30th.

IN FULL BLAST.—Messrs. Thomas & Hunt, successors to F. S. Freeman, have laid in large supplies of goods, and are now in full blast.

NEW SCHOOL HOUSE.—The new brick school house is just receiving the roof. It bids fair to be well inclosed before winter sets in.

WILD GEESE.—Wild geese are occasionally observed passing southward—an indication that winter will soon be upon us.

EDITOR DEMOCRAT:—As one of our Deputy Sheriffs was returning from San Francisco on the Tuesday evening train, for some reason best known to himself, he saw fit to jump off the cars before they reached the depot, and while in motion. He had in his possession an old, borrowed, water-proof coat. In his hurry he picked up a new one (by mistake, of course, as he, like Cæsar's wife, is above suspicion); but what was his astonishment on arriving at his office to find that the coat in his possession was a new one—and Oh, horror of horrors! the pockets were filled with printer's bills. He slept not a wink that night, not knowing at what hour his satanic majesty, the printer's devil, might call for him. He spent the night in cursing and praying, and freely confessed that he did not suppose the coat belonged to a disciple of Faust. Early in the morning he called up his superior officer and induced him to make suitable apologies, and states that he cares nothing for the return of the old coat (it was borrowed), and the Marysville printer is welcome to it, but if he has no use for the bottle of whisky and a love letter left in the pockets, would like to have them returned. X.

REMOVED.—Nangle, the Anatomical Boot Maker has removed his shop to the Good Templars' building, opposite Roberts' livery stable and west of the railroad. He will make fashionable boots to order that will fit like a charm. He respectfully invites the patronage of his old customers and the public in general.

SALE OF PROPERTY.—Mr. J. L. Simpson has sold his property in the south part of town, to Mr. Byron Jackson, for $4,000. It embraced ten acres of land with a good frame house, bearing orchard, vineyard, etc.

PATRONIZE HOME MECHANICS.—Those intending to have their Buggies, Carriages and Wagons repainted or varnished "to preserve the wood and save expense," can have them as neatly, as well and as handsomely done in Woodland as anywhere in the State. There are several paint shops in Woodland where they pretend to do buggy painting; but those wanting a good, handsome and serviceable job done, painted as a buggy should be, by all means should take it to ELLIOTT'S SHOP, for he has in his employ as good as any if not the best buggy painter on this coast. Besides, he uses none but the best paints, oils and varnishes; he buys no material "because it is cheap;" his motto is that the best is the cheapest always. His varnish and paint rooms can't be excelled anywhere, in being well finished and free from dust and dirt. The above superior advantages over other shops, is the reason why Elliot turns out better looking, better finished and more durable, and consequently gives customers better satisfaction than can be done in any shop within a thousand miles of Woodland. He has the best of mechanics in all the other branches of his business; but we call particular attention to his painting because good painters in these parts are as "few and far between as Angel's visits." Give him a call and he will give you satisfaction and charge you enough, too. He has finished and for sale quite a good assortment of Buggies and Farm and Spring Wagons, which he is offering at greatly reduced prices. oct7-1m

SPECIAL NOTICES.

A BANK ACCOUNT is good to have, but if too freely drawn upon it runs out. Bodily health is the first of blessings, but because a good constitution bears abuse wonderfully, do not assume that a reckoning day will never come. Live sensibly and moderately; and at the first symptom of dyspepsia, disorders of the skin, kidneys, liver or blood, use promptly Dr. Walker's California Vinegar Bitters, the unrivaled purifier of the blood and renovator of the system, which is a certain cure.

Trust what Time Sanctions.

The maxim that the voice of the people is the voice of the divinity, may, in some cases, be open to doubt, but the testimony of honest and enlightened witnesses, extending through a series of years, and all to the same purport, is worthy of credence, admits of no question. Upon such testimony the reputation of Hostetter's Stomach Bitters as an antidote and cure for many ailments is based. During the twenty years that it has been before the world, innumerable preparations intended to compete with it, have gone up like rockets and come down like the extinguished sticks. In the meantime the progress of that incomparable tonic has been swift and steady—always upward and onward like the eagle's flight. Its introduction produced a revolution in therapeutics, and it proved to be one of those salutary revolutions that cannot go backwards. To-day Hostetter's Bitters is one of the most popular remedies in Christendom, and commands a larger sale than any other medicinal preparation, domestic or imported, on this side of the Atlantic. As a cure for dyspepsia, bilious disorders, nervous affections, general debility, and as a preventive of epidemic fevers, it takes precedence of every other remedy. This fact should teach the ambitious country dealers who endeavor to foist their local abortions on the public in its stead, how futile their small attempts to cajole the community must necessarily be. Where the game fish have failed there is certainly no chance for the "suckers." oc

History of Sacramento.

Sacramento City is, comparatively speaking, a small place, alongside of most of the cities in the United States. Were it not for the indomitable perseverance of its inhabitants, it would long ago have been among the things that were. It has had severe fires, sweeping the whole city out of existence; but only to be rebuilt again. It has been flooded a number of times, destroying hundreds of thousands of dollars worth of property, but still it lives and prospers. It is a well-known fact that it was the perseverance of Sacramento people that built the Central Pacific Railroad. Most all large California enterprises have originated in Sacramento. Many of the largest mercantile houses on this coast obtained their start in this city. It is now proposed to organize a Free Labor Exchange. This is not a local institution, but will benefit not only the whole of this State, but also Oregon and Nevada as well. This Gift Concert has been chosen as the most feasible manner to raise a fund large enough to place the Labor Exchange on a sound basis. The enterprise has been undertaken by some of Sacramento's best citizens, who have the requisite perseverance and nerve to carry it through successfully.

LANGLEY'S SARSAPARILLA
COMPOUND
The Safest and Best
BLOOD PURIFIER
IN USE.

A Certain cure for Rheumatic and Mercurial affections, Scrofula or King's Evil, Salt Rheum, White Swellings, Tumors, Ulceration of the Bones, Liver and Kidney Complaints, Neuralgia, Constipation, Dyspepsia, Female Weakness and Obstructions, and all the
Diseases arising from an Impure State of the Blood

This preparation is absolutely free from any Mercurial or Poisonous substance. It is prepared after careful experiment and a long and wide experience in observing the effect of the different ingredients. It possesses the priceless quality of effecting by its quiet and gentle action a gradual and thorough Purification of the blood. The strongest will find it a searching and
INFALLIBLE CURE.

The most delicate female or child can take it with impunity, and the remarkable success attending its use warrants the Proprietor in claiming it as the best family remedy in use.

Dyspepsia and Constipation
Are immediately relieved by this compound; its steady and gentle operation gives nature the required assistance, and in a short time the organs are sufficiently invigorated to perform their functions without artificial aid.

AS A SPRING MEDICINE
IT IS INVALUABLE,

Removing that sluggish, dull feeling which the winter often leaves in the system, banishing all skin eruptions and making the complexion clear and bright.

Put up in quart bottles. Sold by all dealers. Sole Proprietors,

THE GREAT
BLOOD PURIFIER.

JUDGE S. HEYDENFELDT says: "My attention was called to it about eighteen months ago, when I had been suffering with rheumatism for more than a year, and had failed to find relief from other remedies. The YERBA SANTA relieved me entirely in two days. Some ten or twelve cases of Rheumatism, two cases of Gout and two cases of Neuralgia have been relieved within my immediate knowledge." R. H. SINTON says: "I fully concur with Judge Heydenfeldt in regard to the curative powers of YERBA SANTA. I have myself used it, and take pleasure in recommending its use to those afflicted with Rheumatism in any of its forms." T. J. JENKINS, M. D., (Physician to Butte County Hospital,) says: "I have used YERBA SANTA for some years in my private practice as physician. I have found it invaluable in cases of Chronic Rheumatism, and of much benefit as an alterative BLOOD PURIFIER and tonic." FRANK MATHEWS, of Oroville, says: "Some years since, I was a martyr to Rheumatism, and feet, unable to move except with crutches, at great pain. I was crippled in hands and YERBA SANTA. I soon experienced great benefit from its use. I am at the present time strong and indeed and I recommend all who are afflicted as I was to try it." CHAS. WALDYER, of Cherokee, Butte county, states: "For many years a sufferer from Rheumatism in its most painful type I sought relief in vain until I was induced to try the YERBA SANTA, when I found perfect restoration to health. I have recommended it to my friends, and in all cases a perfect, a speedy cure was the result. I sold it to Dr. JAMES ROBERTS, of San Francisco, and says: "I had for three years been afflicted with the Rheumatism, to such an extent that in all that time I was unable to do any work. I was at last induced to try YERBA SANTA; after using two bottles I was completely cured, and am now as well as I ever was in my life." M. H. DARRACH (County Clerk of Butte county,) says: "I have seen much of the beneficial effects of YERBA SANTA in Scrofula, also in Salt Rheum, Rheumatism and Neuralgic affections. I believe I know of no instance where it has failed to cure." YERBA SANTA completely restores the system when impaired by disease, revives the action of the kidneys, and radically cures Scrofula, Salt Rheum and all eruptive and cutaneous diseases. It is PURELY VEGETABLE, being made from an herb indigenous to California. It is therefore peculiarly suitable for use by Females and Children, as a Blood Purifier and Renovator. YERBA SANTA is for sale by all dealers in family medicines.

THE NEW FOOD.

For a few cents you can buy of your Grocer or Druggist a package of SEA MOSS FARINE made from pure Irish Moss or Carrageen, which will make sixteen quarts of Blanc Mange, and a like quantity of Puddings Custards, Creams, Charlotte Russe, &c. It is the cheapest, healthiest and most delicious food in the world. It makes a splendid Dessert, and has no equal as a light and delicate food for Invalids and Children.

A Glorious Change!
THE GREAT WORLD'S TONIC.
Plantation Bitters.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid, it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate, or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits. For sale by all druggists.

The Yolo Democrat.

The Farallones.

"The Farallones" is the name of a small group of islands lying some twenty-seven miles seaward from the Golden Gate, which may be seen on any clear day from either the Cliff or Ocean House. The light house is seen perched upon the top of the principal island, while the air is literally filled with birds, like bees around a hive. Those which are most numerous are Murre or Foolish Guillemot. This bird, after laying its eggs, never leaves them except for short periods of time, during which the male stands over the same, for the reason that the gulls are always by and watching for an opportunity to steal and eat them. The eggs are unaccountably large for the size of the bird—about twice as large, in proportion, as a hen egg.

In addition to the murre there are also pigeons, hawks, coots, puffin, gull, shag, etc. The two last are the only ones that remain there through the Winter. So numerous are they during their periods of incubation, that if you walk among them they rise by thousands, and fairly darken the air with their flight.

Besides the birds, the rocks adjacent to the sea are constantly covered with great numbers of seals, weighing from 2,000 to 5,000 pounds and upwards. It is said that these curious animals have each their particular rocks, where they take their siestas, and that they do not allow their premises to be invaded by stranger seals without a fight.

ELASTIC RAILS.—Letters patent have been taken out for a new rail for railroads, which promises to do away with the continual rattle and jar of railroad travel. It is a continuous elastic T-rail, and the inventor and those who have examined the principle of its construction claim important advantages over any rail now in use. The rails are in two sections, and are fastened together by horizontal bolts. Between the sections is India rubber packing, five-eights of an inch in thickness. It is thought the use of this rail will prove important in many respects, and be much cheaper in the end than those now in use. The upper section may be made either of iron or steel, and when worn out can be relaid without disturbing the under section. A great expense will therefore be saved in relaying the track. The India rubber packing, it is contended, will give the car an easy and almost noiseless motion, and prevent the sharp concussions which so frequently result in the breaking of the axles. The saving every year to the rolling stock, it is claimed, will be an item of very great importance, and will commend the use of this improvement to all companies that study economy as well as safety. If the friction is lessened as much as engineers claim it will be by the adoption of this improvement, the duration of the rails will be greatly prolonged.

A PEN PICTURE.—The *Pacific Law Reporter*, in a recent issue, contains a graphic description of the present Justices of the Supreme Court of California. The writer draws the following pen picture of one of the Democratic candidates at the election on the 18th proximo:

The last upon the Bench is Temple, J., the youngest member of the Court. Judge Temple is, without doubt, the classical scholar of the Court. Possessed of a thorough classical education and a legal mind of high rank, he impresses all who know him with the conviction that he is a thorough and exacting legal scholar. In personal appearance Judge Temple is slender, with a face inclined to be thin; regular features, a full eye, a well balanced head, broad at the base and narrow at the front, and a countenance upon which a kindly expression constantly plays. He is patient and attentive, changes his position seldom in his seat, and keeps his eye constantly upon the counsel addressing the Court.

A WONDERFUL VEGETABLE PRODUCT.—There is a species of cactus which grows in Mexico and some parts of Arizona which may justly be ranked among the wonders of nature, which is thus described by a late correspondent of the *Alta*: "It rises in the form of a beautiful fluted column, as regularly grooved from top to bottom as if done by the chisel of an artist. The columnar stem or trunk is about three feet in diameter, and retains its size and symmetrical form to the height of forty and sometimes fifty feet. The edges of the grooves running perpendicular from top to bottom of the gigantic plant are thickly studded with long thorns, hard as steel and as sharp as a cambric needle. Not a limb or a leaf mars its artistic contour, and were it not for their dark green color and the corona of crimson flowers at their top, one might think them to be the productions of art rather than a natural vegetable growth."

MECHANICS' FAIR.—The San Francisco *Commercial Herald* says:

Last Saturday night at 10½ o'clock, the Eighth Industrial Exhibition of the Mechanics' Institute came to an honorable and satisfactory termination. the receipts have been $60,000, and the expenses $26,000—leaving a profit of $34,000, besides the value of the building and fixtures, estimated at $12,000. During the exhibition, the Pavilion was a grand theatre of instruction and enlightened gratification. It was the arena in which mechanical ability, inventive genius, and creative power met and competed for the reward of merit. It was the storehouse of an infinite variety of useful and ornamental objects devised and perfected by the mind and skill of man. Its mission was noble, its career lustrous, and its end regretted, but successful.

WHAT PRESIDENT GRANT'S SIGNATURE COSTS.—Every paper requiring the signature of President Grant is sent on to Long Branch by a special messenger who is allowed ten cents a mile mileage each way, hotel bills and contingent expenses. It is estimated that every time signature of U. S. Grant is now appended to any commissary order, bigamy pardon, or other paper, it costs the tax-payers about seventy-five or a hundred dollars, according to the expenses consequent to the travel of these messengers. And all this, while Grant draws his full salary, smokes his cigar, laughs in his sleeve at cajoled people, and plots with his crowd of office-holders to secure a renomination. What a patient set of asses the American people would prove themselves to be if they should re-elect him.—*Chicago Democrat.*

VALUABLE INFORMATION.—A correspondent of the *Rural New Yorker* says: "Tell your lady readers to mend their tin pans with putty. It is very easily done and is better than to throw them away. Put it on the outside; let it thoroughly dry, and they will never have to mend that place again. I have them that I have used for twenty years."

I do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures consumption, when the lungs are half consumed; in short, will cure all diseases, whether of mind, body, or estate, make men live forever, and leave death to play for want of work, and is designed to make our subluinary sphere a blissful paradise, to which Heaven itself shall be but a side show. You have heard enough of that kind of humbuggery. But when I tell you that Dr. Sage's Catarrh Remedy will positively cure the worst cases of Catarrh in the head, I only assert that which thousands can testify to. I will pay $500 reward for a case that I cannot cure. A pamphlet giving symptoms and other information sent to any address. This remedy is sold by most druggists in all parts of the world. Price 50 cents. Sent by mail, postpaid, on receipt of sixty cents, or four packages for two dollars. Beware of counterfeits and worthless immitations. See that my private Stamp, which is a positive guarantee of genuineness, is upon the outside wrapper. Remember that this private stamp, issued by the United States Government expressly for stamping my medicines, has my portrait, name and address, and the words "U. S. Certificate of genuineness," engraved upon it, and need not be mistaken. Don't be swindled by travelers and others representing themselves as Dr. Sage; I am the only man now living that has the knowledge and right to manufacture the genuine Dr. Sage's Catarrh remedy, and I never travel to sell this medicine. THE DOMESTIC

Sewing Machine!

A New Favorite in California.

The Domestic Sewing Machine has just been introduced into this State, and is now offered to the public. It makes the Shuttle or Lock Stitch, alike on both sides, uses a straight needle, and its range of work is from the heaviest to the most delicate fabric, sewing every kind perfectly. It has a self-adjusting tension, which requires no alteration in changing the thread, or in sewing different thicknesses. In simplicity and durability it is unequaled. One great advantage in this machine is, that it will sew over thick seams without difficulty.

The Domestic Stands on Its Merits Alone,

Which have secured it large sales wherever it has been introduced. It combines beauty of appearance with easy, quiet action and perfect work.

THE DOMESTIC SEWING MACHINE is furnished in various styles, the prices ranging about with those of other first class machines.

Ayer's

Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula**, and all scrofulous diseases, **Ulcers, Eruptions**, and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm**, and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility**, and **Leucorrhœa**, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists, and Dealers in Medicines.

Buckingham's Dye.

FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in *one preparation*; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

The Great Medical Discovery!

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

These are a Gentle Purgative as well as a Tonic, possessing the alterative principle unequalled by any other preparation known, acting as a general Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. Congestion or Inflammation of the Liver, and all the Viscera Organs.

FOR FEMALE COMPLAINTS, whether in Youth or old, married or single, at the dawn of Womanhood or the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION.

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

CARRIAGE AND WAGON

MANUFACTORY!

CORNER MAIN AND FOURTH STS.,

Opposite Gas and Water Works.

WOODLAND, CAL.

LIVERYMEN, FARMERS

AND TEAMSTERS

Will find my make of BUGGIES, SPRING and LUMBER WAGONS, the best in any market for their use.

REASONS WHY:

BECAUSE they have as good if not the best reputation at home. Each Wagon is perfect in all its parts.

BECAUSE my prices are as low as the lowest for first-class work.

BECAUSE I can furnish the highest home testimonials as to their durability and lightness of draft.

BECAUSE none but the best and most experienced mechanics are employed in their construction.

BECAUSE they are built upon scientific principles, combining the greatest strength with lightness of draft.

BECAUSE wherever introduced they are generally preferred by Liverymen, Farmers and Freighters.

BECAUSE they are made in a very DRY CLIMATE, and from that fact are far superior for service to those built in more moist or damp parts of the country.

BECAUSE I give rules for taking care of carriages.

First—The carriage-house should be apart from the stable, as the ammonia arising from horse manure will in a very short time destroy the varnish on a carriage, and then the owner ignorantly charges the carriage maker with using inferior varnish.

Second—In washing a buggy cold water should be used freely, so as to remove the dust and mud before using the sponge and chamois skin.

Third—Never turn the hose under or on the seat, for the water will loosen the canvass and glue, and cause the corners to give way and the body to go to pieces.

Fourth—To preserve the wood and save expense, the carriage should be kept thoroughly painted and varnished.

Fifth—I am better prepared than ever, to Paint, Ornament and Varnish Carriages, Wagons, etc. I have in my employ the best of buggy painters, and use none but the best articles of paints, oils and varnishes; the above in connection with my Paint Shop and Varnish Rooms, which are as good if not the best on this Coast, being hard finished and free from dust. I can, and have turned out as smooth, clean and nice finished jobs as can be done in the State.

Sixth—Those wishing to get their buggies, carriages, etc., repaired and painted, will do well to call at my shop and examine my superior advantages over other shops. I am willing to abide by the injunction, "by their works ye shall know them." I am willing that my work shall praise me; I ask no other endorsement. This endorsement I have had in past years; this I expect to merit and maintain in the future.

NEW REMEDIES!. NEW REMEDIES!

DR. GIBBON'S DISPENSARY,

No. 632 Kearney Street, corner Commercial, San Francisco, established in 1854, for the treatment of Sexual and Seminal Diseases, Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcered Legs, etc., successfully treated.

DR. GIBBON

Has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his Dispensary, 632 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness

Produces with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cure at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By inclosing $10 in coin, in a registered letter, through the Post Office or through Wells, Fargo & Co.

A package of medicine will be forwarded express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.
